International Conference on [Pediatric Cardiology 2020](#) will be held at Barcelona, Spain with the innovative theme “Exploring Innovative Approaches towards the Research and Development of Pediatric Cardiology”. The main objective of the conference is to bring together pediatricians, pediatric [cardiologist](#), experts in child development and other specialists to exchange their ideas and knowledge between the different disciplines for facilitating research and clinical interdisciplinary collaborations.

Global Pediatric Cardiology Market analysis:

The main part of the world associated with Pediatric Cardiology field are Directors, Heads, Deans, Professors, Scientists, Researchers, Doctors, Students and Writers of Pediatric Cardiology Department as well as Founders and Employees of the related companies, Associations members, related organizations, laboratories members etc.

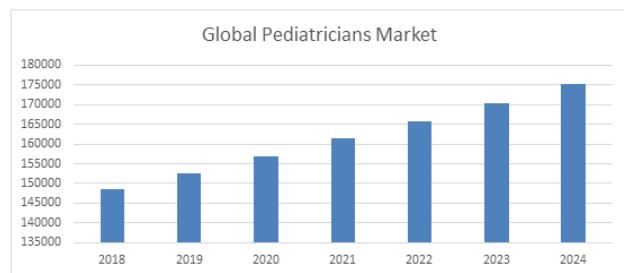

Global Pediatricians Market analysis:

The global Pediatricians market is valued at 148500 million USD in 2018 and is expected to reach 170800 million USD by the end of 2024, growing at a CAGR of 2.8% between 2019 and 2024.

Europe held the second spot in the global [pediatric healthcare](#) market in 2018, due to the increasing demand for chronic disease treatment, rising healthcare infrastructure, and growing enterprises of medical hospitals and clinics. Germany, the UK, and France are major countries in the European pediatric healthcare market. The UK is estimated to be growing rapidly over the forecast timeframe. Germany dominated the

European market with a major revenue share in 2018, due to the increasing adoption of advanced medical treatment and various technological advancements.

Importance and Scope:

Pediatric cardiology is concerned with diseases of the heart in the growing and developing individual. As well as expertise in [heart disease](#), pediatric cardiologists also need a thorough grounding in general pediatrics, in order to provide all-round patient care.

Pediatric cardiologists broadly treat congenital heart disease (present at birth), arrhythmias (variations in heartbeat rhythm) and disturbances of circulatory function.

The initial assessment performed by the pediatric cardiologist might start with a physical examination using a stethoscope, after which more detailed investigations may be suggested.

Patients often present with complex diagnostic and medical problems and after the initial assessment the pediatric cardiologist then chooses an optimal management plan. They work closely with a wide range of specialists as part of a multidisciplinary team to assess and treat patients.

Pediatric cardiologists play a vital role in the teaching of Medical Students, Doctors, GPs, Nurses and Paramedical staff and most are also involved in research.

The field of pediatric cardiology has seen significant change over the past 30 years. One of the most fundamental differences is the change of focus: from neonatal through school-age patients constituting >90% of clinical activities in 1977 to more than 50% of patient activity involving the care of young adults and fetuses with congenital heart disease. Over the past few decades, advances in pediatric cardiology and cardiac surgery have revolutionized the management of patients with adult

congenital heart disease (ACHD). As a result, the majority now survive into adulthood.

Target Audience:

- Scientists
- Doctors
- Professors
- Pediatrics Lecturers
- Pediatrics Students
- Cardiac Surgeons
- Pediatric Cardiologists
- Cardiology Associations and Societies
- Cardio-thoracic Surgeons
- Pediatrics Industries
- Directors of Association and Societies
- Researchers
- Training Institutes
- Medical colleges and universities
- Manufacturing Medical Devices Companies
- YOU!

Related Companies/Industries:

- Abbott Laboratories
- Amgen | AstraZeneca
- Biogen Idec
- Boehringer Ingelheim
- Bristol Myers Squibb
- Celgene Corporation
- Eli Lilly & Co
- European Commission
- Gilead Sciences
- Industry ARC
- Johnson & Johnson
- Mead Johnson Nutrition
- Merck & Co
- Novartis
- Novo Nordisk
- Ortho Europe

- Para base Genomics
- Research and Diagnostic Antibodies
- Sanofi
- Savion Advanced Patient Care
- Siemens AG
- Teva Pharmaceuticals
- Varian Medical Systems
- Pharma Tech

Related Associations and Societies:

- Societa Italiana di Pediatria (Italian Society of Pediatrics)
- The Italian Society of Pediatric Anesthesia (SARNePI)
- Italian Federation of Primary Care Pediatricians
- Società Italiana di Ricerca Pediatrica (SIRP)
- Societatea Romana de Pediatrie Sociala
- Romanian Society of Pediatrics
- World Federation of Associations of Pediatric Surgeons
- Asian Association of Pediatric Surgeon
- European Pediatric surgeon association
- European society for paediatrics research
- American Pediatric surgical association
- Association of Paediatric Surgeons of Belarus
- Association of Pediatric Surgeons of Macedonia
- German Pediatric association
- Academic Pediatric Association
- American Pediatric Society
- American Pediatric Surgical Nurses Association
- Association of Surgeons of the Netherlands
- American Academy of Pediatrics
- American Society of Pediatrics Haematology/Oncology
- Canadian Pediatric Association
- European Paediatric Surgeons' Association (EUPSA)
- European Society for Paediatric Infectious

Diseases (ESPID)

- European Society for Pediatric Neurosurgery (ESPN)
- European Paediatric and Congenital Cardiology (AEPC)
- European society for Pediatric Urology
- European Society for Paediatric Radiology-ESPR
- European Society for Pediatric Gastroenterology
- European Paediatric Dentistry Societies and Associations
- European Pediatric Association
- European & Worldwide Associations –EADV
- Indian Association of Pediatric Surgeons
- International Association of Endocrine Surgeons
- International Pediatric Association
- Indian Academy of Pediatrics
- International Society for Heart & Lung Transplantation–ISHLT
- International Pediatric Simulation Society– (IPSS)
- OPEN Pediatrics Community European Society for Paediatric Research (ESPR)
- Society of Developmental and Behavioural Pediatrics
- The Asia-Pacific Pediatric Association
- The International Society for Pediatric Innovation (ISPI)
- World Society for Pediatric Infectious Diseases (Netherlands)
- World Federation of Pediatric Imaging (AfSPI)
- Worldwide Pediatric Cardiovascular Services – WSPCHS
- Worldwide Dermatology Societies – DermNet NZ
