

Annual Congress on Pediatrics & Cardiac Care scheduled on December 03-04, 2020 at Singapore City, Singapore

Bella

Senior Professor, Department Of Cardiovascular, University of Senfresisco, USA, E-mail: jhonbella2019@gmail.com

PEDIATRIC CARDIOLOGY is a condition in which the heart can't pump enough blood to meet the body's needs. PEDIATRIC CARDIOLOGY 2020 does not mean that your heart has stopped or is about to stop working. It means that your heart is not able to pump blood the way it should. It can affect one or both sides of the heart.

The weakening of the heart's pumping ability causes:

- Blood and fluid to back up into the lungs
- The buildup of fluid in the feet, ankles and legs - called edema
- Tiredness and shortness of breath

The PEDIATRIC CARDIOLOGY 2020 is an event that aims to explore the ways to innovate in the field of cardiology, and to find new catalysts for better industrial development at Singapore City, Singapore on March 25-26, 2020. The conference will cardiologist with different specialties such as heart dieses, cardiovascular, etc. PEDIATRIC CARDIOLOGY 2020 will discuss on the topics such as heart rhythm problems, coronary artery disease, [PEDIATRIC CARDIOLOGY 2020](#), Heart Diagnosis & Devices, Cardiac Nursing and Healthcare, Pediatric & Geriatric Cardiology, Cardiovascular Toxicology and Pharmacology.

The purpose of this letter is to notify you, on behalf of the Organizing Committee, to participate at the upcoming [PEDIATRIC CARDIOLOGY 2020 for Next Generation at Singapore City, Singapore](#) during **December 03-04, 2020**.
